GripPack

- Keep your pallets stable during palletizing process
- Transport your goods safely all the way
- Easy depalletizing without breakage and without waste

GRIP FIX is a water-based non-slip liquid, soluble and without solvents, which prevents your merchandise from slipping during its palletizing and transportation. Applicable to all kinds of paper bags, PE and PP bags, cardboard boxes, cellophane and raffia among others.

All these reducing costs, protecting the environment and avoiding mountains of plastic.

Reduction of costs

Without residues

Ecological

Non toxic

#WEPACK

Using GripPack is easy thanks to our quick connector system that we can use either manually or with our automatic application machines.
